

CROSS COUNTRY MANUFACTURING

Engineered for today. Built for a lifetime.

463SDX Side Dump

Cross Country Manufacturing's Side Dump trailers provide superior stability and handle the road like no other.

Cross Country Manufacturing's Side Dumps are in a class of their own, designed to handle the stresses of hauling day after day, and built to hold up in the harshest conditions.

Our Side Dump lineup meets North America's diverse geographical requirements. With controlled dump action, the SDX has improved unloading stability. Our side dumps are manufactured in Canada using premium steels, thereby reducing tare weight and optimizing payload for the long haul.
