

CROSS COUNTRY MANUFACTURING

Engineered for today. Built for a lifetime.

303QR4E Quarter Frame

Cross Country Manufacturing's Quarter Frame End Dump trailers provide superior unloading stability, allowing for operation in tight areas.

Our Quarter Frame lineup meets North America's diverse provincial and state requirements. We design these trailers to meet your specific region's geographic needs, with the ability to operate in some of the most challenging terrain. Quarter Frame trailers are available in 24', 26', 30', and 37' box lengths.

Our Quarter Frames are manufactured in Canada using premium steels, thereby reducing tare weight and optimizing payload for the long haul.
