

CROSS COUNTRY MANUFACTURING

Engineered for today. Built for a lifetime.

173RP End Dump Pup

Cross Country Manufacturing's Pony Pup trailers provide extra capacity to level up your hauling game. Adding a pup trailer to your lineup will **reduce round-trips, increasing time and productivity on the job site.**

Our Full Frame End Dump lineup meets North America's diverse provincial and state requirements. We design these trailers to meet your specific region's geographic needs, with the ability to operate in the most challenging terrain. Full Frame End Dump Pups are available in tandem, tri-axle, and quad-axle (S.P.I.F.) configurations. Radius and square body designs are also available.

Our Pony Pups are manufactured in Canada using premium steels, thereby reducing tare weight and optimizing payload for the long haul.
