

CROSS COUNTRY MANUFACTURING

Engineered for today. Built for a lifetime.

370BCC Cross Clam Belly Dump Trailer

Cross Country Manufacturing's Cross Clam Belly Dump's unique design allows for **precise control and efficient unloading, enhancing productivity and reducing time spent at the job site.**

The cross clam gate openings can spread a thin layer of material, in some cases preventing the need for a secondary machine to level the spread. Our cross clams provide an easy, fast dumping motion with a low tip-over rate, making them the right choice for any job.

Our Cross Clam Belly Dumps are manufactured in Canada using premium steels, thereby reducing tare weight and optimizing payload for the long haul.

Features

1. Oscillating fifth wheel
2. Frame mounted landing gear
3. Rubber gate seals
4. Electronic gate stops with multiple settings
5. 10" extension sideboards
6. 60 gallon air reservoir exclusively for gate operation (shown with optional aluminum air reservoir)
7. High tensile steel tube frame
8. Sherwin Williams Epoxy Primer and Top Coat available in standard colours black, white, and silver with custom colours available
9. Removable push block
10. LED lighting

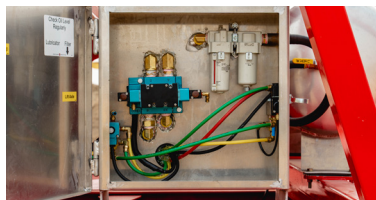

8" Composite Cylinders With Threaded Clevis

Electronic Gate Stops

Walk along gate control located on the hopper sidewall

Control Box

In-Cab Control Unit

Additional Features

- 37' overall length
- 102" width
- 28.7 cubic yards level to the top
- Fabricated frame rails and crossmembers constructed from 100,000 PSI high tensile steel
- Straight sidewall
- Lubrication and filter for air cylinders
- 30,000 lb Hendrickson air ride suspension
- 25,000 lb axles with parallel axle ends, camshaft tubes and dustshields
- Steel wheels available in 22.5" and 24.5"

Options

- Tarps: flip style, slide tarp, side roll
- Electric and manual tarp drives
- Aluminum wheels
- Lift axle
- Axle guards (windrow deflectors) on 2nd and 3rd axles
- Custom colors
- Vibrator
- UHMW liner
- Front and rear shed plates
- LED work lamps
- Strobe lamps
- Placard holders
- Air, electrical and pintle hook configuration for trains
